

BARUCH BUSINESS SOLUTIONS

“Constant Innovation , Continuous solution, Consistent accuracy.”

AN EDGE ABOVE AND BEYOND

BBS (Baruch Business Solutions), a Medical Billing and Coding services company based in California, along with an operational office located in the southern India in Thanjavur, Tamilnadu. Primarily a revenue cycle management company, catering to healthcare IT & RCM process across the USA. RCM being one of the core functions. Most medical billing companies strive to take control of the entire system at hospitals and clinics by offering them their own softwares, instead of allowing the doctors to hold the control over their workflow. Contrastingly, BBS gets access and plugs into its clients' software, stays in direct touch with both doctors, and their staff members, and thus is able to deliver customized daily, weekly and monthly reports with the utmost accuracy and transparency. This in turn assists the management in policy formation. This has also helped hospitals revolutionize medical billing methodology with unrivalled accuracy in the healthcare IT Avenue. BBS offers revolutionary accounting alternatives to healthcare industry across the USA. Innovation and creativity are the crux. The focus has been on efficient practice management tools that would help in successful revenue recovery and also better healthcare outcomes to patients. Additionally, financial reporting tool is a key, which is the most interesting and challenging avenue of the healthcare IT industry. The requirement of data for each client varies, which plays a pivotal role in forming management policy decisions. The required data retrieved, analyzed, and presented to the client within 24 to 48 hours via a system developed and implemented to form an effective health IT accounting system.

CREATING SPACE AND MAKING RELEVANCE

At present, BBS in collaboration with TLK Medical Group, LLC., has a significant presence in 21 states in the U.S.A and in the near future they aim to scale up to 41+ states with an indelible footprint. The focus of the company lies on policy development, operational process workflow along with all these priority aspect, Compliances tops the list. According to the Founder and CEO, Hamsavardhan Mohan, "Business is challenging in every way, setting up the organization, financial management, policies, and regulations, Organizational and Operational Workflow, ensures deliveries on time with accuracy and in accordance with the clients' requirements". They employ up to 60% freshers, Who in turn are trained and mentored by professionals with over 2 decades of experience in the industry.
